

## Safeguard your business data

ITopia Solutions is proud to introduce our BarbWyre software suite. BarbWyre is a comprehensive data protection system, offering an easy-to-use and reliable backup solution to safeguard important business and personal data, safe in the knowledge the data is stored in a highly secure data centre and is readily available when needed.

**“93% of organisations who experienced a significant data loss are out of business within five years”...Gartner.**

## Low cost, best protection

BarbWyre offers complete protection to your critical business data at the best value of money currently available in the market.

## Easy to use, simple to maintain

The BarbWyre client user interface is cleanly laid out so backup and restore can be managed with a few clicks. On the server side, the web based management console provides complete user administration, comprehensive online reports and email alerts for system administrators. The Auto Upgrade feature allows upgrade of the client software to be completed seamlessly. All this translates into a low Total Cost of Ownership (TCO).

Other benefits include:

- Multiple levels of protection
- Specialist backup agents for popular applications
- Unlimited scalability
- Free trial
- More reliable and faster backups
- Simple and dynamic restore from anywhere at anytime
- Full support

A FRESH APPROACH
